Forecast For Northeast England
Issued by Met Office Exeter
at 0400 on Monday 28 Jun 2021

++ Valid for broadcast between 0600 and 1800

Headline:
Cloudy but dry, turning sunny later.

Today:
Mostly cloudy across the region at first, with some fog patches over the Pennines. Cloud breaking up during the morning allowing some sunny spells, continuing to improve with widespread sunshine later. Maximum temperature 20 deg C (68 deg F).

Tonight:
A bright and sunny evening, and staying clear overnight. This will allow misty conditions to form in rural areas with a chance of fog in prone locations. Minimum temperature 8 deg C (46 deg F).

Tuesday:
A similar picture tomorrow with intermittent cloud and sunny spells mainly later. Small possibility of a shower towards the south. Turning murky overnight with low cloud and drizzle. Maximum temperature 20 deg C (68 deg F).

Outlook for Wednesday to Friday:
Generally cloudy during the mornings, improving by midday with sunnier spells in the afternoons. Dull with outbreaks of rain and drizzle early Wednesday. Occasional showers on Thursday and Friday afternoons.
